Md. Zunaid-Ul-Alam

Dhaka, Bangladesh | zunaidulalam@iut-dhaka.edu | +880 1798-080786
Portfolio: zunaid13.github.io/Portfolio | GitHub: zunaid13 | Codeforces: zunaid13

Research interests: Large Language Models · Retrieval-Augmented Generation · Knowledge Graphs · GraphRAG · Parameter-Efficient Fine-Tuning · NLP

EDUCATION

B.Sc. in Computer Science and Engineering *Jun 2021 – Oct 2025*

Islamic University of Technology (IUT) · *Gazipur, Bangladesh*

CGPA: 3.96 / 4.00. Coursework: algorithms, machine learning, software engineering, databases, and systems.

Higher Secondary Certificate — Science *2018 – 2020*

Birshreshtha Noor Mohammad Public College (BNMPC) · *Dhanmondi, Dhaka*

GPA: 5.00 / 5.00

Secondary School Certificate — Science *2016 – 2018*

Birshreshtha Noor Mohammad Public College (BNMPC) · *Dhanmondi, Dhaka*

GPA: 5.00 / 5.00

RESEARCH EXPERIENCE

NarrativeWiki *Under Review · 2026*

"NarrativeWiki: Probing the Trade-offs of Decomposition in Graph-Built Character Wikis at Reader-Selected Narrative Cutoffs"

Md. Zunaid-Ul-Alam, *Syed Rifat Raiyan* · *Paper (PDF)* · *Code*

- Built NarrativeWiki, which decomposes a novel series into a graph of evidence-backed claims dated by volume and filters it at the reader's chosen cutoff before generating a spoiler-safe, linked character wiki.
- Evaluated it against six systems at every cutoff of a five-volume series (111 gold facts), with a renamed-and-paraphrased text control: closed-book recall fell from 0.683 to 0.003, while systems given the text lost at most 0.070.
- Showed that the design trades context for accumulation: it best covers the most-documented characters and loses one fact across cutoffs (other systems: 4–24), but stored claims lose speaker, modality and scene context.

Benchmarking Psychotherapy Datasets Using RAG and LoRA *Dec 2024 – Sept 2025*

Undergraduate Thesis · Islamic University of Technology

- Explored Retrieval-Augmented Generation (RAG) and Low-Rank Adaptation (LoRA) to improve LLM-based dialogue generation for psychological-therapy contexts.
- Used an LLM-as-a-judge framework to evaluate response quality across multiple therapy datasets.

ACADEMIC & TEACHING EXPERIENCE

Lecturer *Nov 2025 – Present*

United International University (UIU) · *Dhaka, Bangladesh*

- Teaching Data Structures & Algorithms II (DSA2), Object-Oriented Programming (OOP), and Artificial Intelligence (AI).
- Serving as competitive programming trainer, mentoring students for national and international contests including IUPC (Inter-University Programming Contest) and ICPC (International Collegiate Programming Contest).

Mentor & Trainer, UIU Programming Community *Oct 2025 – Present*

United International University

- Instruct weekly classes for advanced teams competing in IUPC and ICPC.
- Run additional sessions as needed; teach data structures and algorithms across problem types, including applied/real-world-oriented problems.

Mentor, Judge & Problem Setter, IUT Programming Community *Jun 2022 – Oct 2025*

Islamic University of Technology

- Instructed weekly classes for 60+ freshmen and sophomores on competitive programming and problem-solving.
- Served as judge, tester, and problem setter for internal contests.
- Competed in 15+ national-level team contests representing IUT.

OTHER PROFESSIONAL EXPERIENCE

Game Developer Intern *Jun 2–28, 2024*

Battery Low Interactive · Baridhara, Dhaka, Bangladesh

- Completed industrial training in Unity and C#, building 2D/3D games in teams of 2–3.
- Gained hands-on experience with gameplay mechanics (scoring, collisions, camera), level design, UI, and basic AR/VR.
- Collaborated on a shared development PC and wrote clear, well-documented code for maintainability.

SELECTED PROJECTS

AutoGrader *2026*

Python, Ollama API

Automated grading tool that calls the Ollama API to evaluate student submissions in `.cpp` or `.pdf` format. Feeds the question, reference solution, and marking rubric to the model to produce total marks with a per-mark rationale; normalizes varied submission formats via cleaning, flattening, and renaming.

VoiceMind *2025*

Dart, Flutter, BLoC, SQLite, Python, Rasa NLU

Mobile app for setting reminders via voice commands, using speech recognition and NLU to extract intent and schedule reminders, with manual entry as a fallback.

SignBoss *2025*

Python, Jupyter Notebook

Desktop app that reads a real-time camera feed to detect and classify sign language (e.g., ASL), helping learners progressively improve at reading signs.

NeuroBot *2025*

Python, PyTorch

Desktop chatbot built on a feedforward neural network, using tokenization and a Bag-of-Words model; trained on a small, easily updatable dataset.

Virtual-Piano *2024*

Java, JavaFX

Desktop music application with customizable tuning key frequencies, recording, global chat, custom keybinds, and an interactive game teaching basic music concepts.

CafeSync *2024*

Dart, Flutter

Android app for inventory, menu, and order management with role-based admin/user logins and customer reviews.

Task Management System *2023*

React, Node.js, HTML, CSS

Web app for creating, prioritizing, and organizing tasks by category and due date, with search, filtering, completion tracking, and detailed views.

Libello *2023*

C

Personal organizer combining a digital diary, to-do list, and encrypted password manager, with user/admin login, progress tracking, and theming.

TECHNICAL SKILLS

Languages: C, C++, Java, JavaScript, Dart, Python, C#, Bash, LaTeX, HTML, CSS
Frameworks & Libraries: Flutter, Node.js, React, Express, JavaFX, PyTorch, NumPy, pandas, Bootstrap, Keras
Tools & Technologies: Git, Linux (Ubuntu), Docker, Jupyter Notebook, Unity, MySQL, MongoDB, Oracle, AutoCAD, Proteus, MS Office
Operating Systems: Linux (Ubuntu), Windows

COMPETITIVE PROGRAMMING

Codeforces Master (peak rating 2106) · CodeChef 5⋆ (peak rating 2060) · ˜2,000 problems solved across online judges · Consistently ranks in the top 3–5% of Codeforces rounds.

Selected highlights

- 3rd / 132 teams — CUET Inter-University Programming Contest 2025
- 1st / 43 teams — AUST CodeClash — Oscillon 2025
- 2nd / 50 teams — 8th DRMC Tech Carnival 2025 (Onsite)
- 15th / 2,481 teams — ICPC Dhaka Regional 2025 (Preliminary)
- 59th / 307 teams — ICPC Dhaka Regional 2025 (Onsite)
- Top 10% — Meta HackerCup 2024 (Round 1)
- Top 10% — Samsung SRBD Code Contest 2024 (Rounds 1 & 2)

Full contest log

Contest	Year	Rank	Field	Note
CUET Inter-University Programming Contest	2025	3rd	132

HONORS, AWARDS & SCHOLARSHIPS

JSC Scholarship — Government of Bangladesh

Birshreshtha Noor Mohammad Public College (BNMPC)

Awarded the Junior School Certificate (JSC) scholarship based on academic merit.

IEEE Cybersecurity Workshop — CTF Super League

Department of Computer Science, BUET

Participant in a cybersecurity capture-the-flag workshop hosted by CS-BUET.
