Education

Islamic University of Technology Bachelor of Science in <i>Computer Science and Engineering</i> CGPA 3.96/4.00	Gazipur, Bangladesh June 2021 - October 2025
Birshreshtha Noor Mohammad Public College (BNMPC) Higher Secondary Certificate • Group: <i>Science</i> GPA 5.00/5.00	Dhanmondi, Dhaka 2018 - 2020
Birshreshtha Noor Mohammad Public College (BNMPC) Secondary School Certificate • Group: <i>Science</i> GPA 5.00/5.00	Dhanmondi, Dhaka 2016 - 2018

Personal Summary

Computer Science undergraduate at the Islamic University of Technology (CGPA: 3.96/4.00) with a solid academic foundation and hands-on experience in software development and collaborative problem-solving. Skilled in designing, implementing, and documenting key system components across multiple team-based projects spanning web, mobile, and AI domains. Actively involved in the programming community as a mentor for three consecutive years, guiding peers and fostering a culture of learning and technical excellence. Passionate about competitive programming, with participation in various national contests including IUPC and ICPC. Dedicated, detail-oriented, and experienced in both individual and team-driven technical endeavors.

Scholarships

Birshreshtha Noor Mohammad Public College (BNMPC) Awarded Junior School Certificate (JSC) scholarship offered by the govt. based on academic merit.	Dhanmondi, Dhaka
---	------------------

Certifications

Participated in the IEEE cybersecurity workshop of CTF Super League hosted by CS-BUET.

Experience

United International University Lecturer Teaching courses in Data Structures and Algorithms II (DSA2), Object-Oriented Programming (OOP), and Artificial Intelligence (AI). Also serving as a competitive programming trainer, mentoring students for national and international programming contests including IUPC and ICPC.	Dhaka, Bangladesh November 2026 – Present
Battery Low Interactive Game Developer Intern Completed industrial training in Unity and C#, developing 2D/3D games in small teams of 2-3 members. Gained hands-on experience in gameplay mechanics (e.g., scoring, collisions, camera), level design, UI, and basic AR/VR. Collaborated on a shared PC and wrote clear, well-documented code for maintainability.	Baridhara, Dhaka, Bangladesh 2nd June 2024 - 28th June 2024

Skills

Languages: C, C++, Java, JavaScript, Dart, Python, C#, Bash, $\text{\LaTeX}$, HTML, CSS

Frameworks and Libraries: Flutter, Node.js, React, Express, JavaFX, PyTorch, NumPy, pandas, Bootstrap, numpy, pandas, keras

Tools and Technologies: MS Office, Oracle, MongoDB, AutoCAD, Unity, Git, Linux, Jupyter Notebook, Docker, MySQL, Proteus

Operating Systems: Linux (Ubuntu) and Windows.

Thesis Work

🔗 **Benchmarking Psychotherapy Datasets Using RAG and LoRA** Dec 2024 – Sept 2025
Exploring RAG and LoRA to improve LLM-based dialogue generation for psychological therapy, using LLM-as-a-judge to evaluate response quality across multiple therapy datasets.

Projects

🔗 **AutoGrader** (2026) **Tools:** Python, Ollama API
An automated grading tool that uses Ollama API calls to evaluate student script submissions in .cpp or .pdf formats. Feeds the question, original solution, and marking criteria to the model, then generates total marks along with detailed explanations for each mark allocation. Handles varied submission formats by cleaning, flattening, and renaming files to a standardized structure.

🔗 **VoiceMind** (2025) **Tools:** Dart, Flutter, BLoC, SQLite, Python, Rasa NLU
A mobile app for setting reminders via voice commands. Utilizes speech recognition and NLU to extract intent and schedule reminders; supports manual entry as fallback.

🔗 **SignBoss** (2025) **Tools:** Python, JuPyter notebook
A desktop application that reads real time camera feed to accurately detect and classify sign languages from different standards (e.g, ASL) and helps learner to progressively get better at reading signs.

🔗 **NeuroBot** (2025) **Tools:** Python
A desktop chatbot using a feedforward neural network in PyTorch, employing NLP techniques like tokenization and Bag of Words to predict and answer user queries. The model is trained on a small, modifiable dataset, enabling easy updates and expansions.

🔗 **Virtual-Piano** (2024) **Tools:** Java, JavaFX
A desktop music application with customizable tuning key frequencies, music recording, global chat, customizable keybinds, and an interactive game that teaches beginners basic musical concepts, enhancing user experience.

🔗 **CafeSync** (2024) **Tools:** Dart, Flutter
An Android app to manage inventory, update menus, track orders, and enable customer reviews. Features include admin and user logins, with admin controls for managing inventory and delivery, while users can place orders and track deliveries.

🔗 **Task Management System** (2023) **Tools:** React, Node.js, CSS, HTML
A web-based application for task management, allowing users to create, prioritize, and organize tasks by category and due date. It features task search, filter, completion tracking, sorting by priority, and detailed task views.

🔗 **Libello** (2023) **Tools:** C

A personal organizer built in C, integrating a digital diary, to-do list, and encrypted password manager with user/admin login, progress tracking, theme options, and fun easter eggs for a secure and user-friendly experience.

Programming Achievements

- CUET Inter University Programming Contest 2025 : 3rd out of 132 teams
- MU Inter University Programming Contest 2025 : 5th out of 100 teams
- Intra First Year Programming Competition 2021 - IUT : 1st out of 39 teams
- UU Inter University Programming Contest 2025 : 4th out of 123 teams
- DUET Inter University Programming Contest 2025 : 4th out of 138 teams
- UIU Inter University Programming Contest 2025 : 12th out of 160 teams
- AUST Inter University Programming Contest 2025 : 13th out of 130 teams
- Intra IUT Programming Contest CodeRush 2022 : 4th out of 24 teams
- AUST CodeClash – Oscillon 2025 : 1st out of 43 teams
- 8th DRMC Tech Carnival 2025 Preliminaries : 9th out of 134 teams
- 8th DRMC Tech Carnival 2025 Onsite : 2nd out of 50 teams
- AUST CodeClash – Oscillon 2025 : 1st out of 43 teams
- Meta Hackercup 2024 (Round 1) : 2,158th out of 22,494. Ranked in **top 10%**
- Meta Hackercup 2024 (Round 2) : 1,727th out of 5,000. Ranked in **top 10%**
- Meta Hackercup 2025 (Round 1) : 2,989th out of 13,779
- Samsung SRBD Code Contest 2024 (Round 1) : 74th out of 1,167 . Ranked in **top 10%**
- Samsung SRBD Code Contest 2024 (Round 2) : 21st out of 284 . Ranked in **top 10%**
- Samsung SRBD Code Contest 2023 (Round 1) : 240th out of 1,014 . Qualified for final round.
- Samsung SRBD Code Contest 2023 (Round 2) : 35th out of 246 . Qualified for final round.
- Cefalo SUST Inter University Programming Contest 2023 : 51st out of 121 teams
- BUET Inter University Programming Contest 2022 : 40th out of 117 teams
- Bitfest KUET Inter University Programming Contest 2022 : 23rd out of 160 teams
- Codestorm CUET Inter University Programming Contest 2024 : 25th out of 100 teams
- Codeforces: **Master | Max Rating: 2106**
- Codechef: **5★ | Max Rating: 2060**
- Solved **~2000 problems** on various online judges. Consistently rank in **top 3-5%** in codeforces contests.
- ICPC Dhaka regionals 2025 onsite : 59th out of 307 teams
- ICPC Dhaka regionals 2025 preliminaries : 15th out of 2,481 teams
- ICPC Dhaka regionals 2024 onsite : 48th out of 223 teams
- ICPC Dhaka regionals 2024 preliminaries : 31st out of 2,489 teams
- ICPC Dhaka regionals 2023 onsite : 50th out of 225 teams
- ICPC Dhaka regionals 2023 preliminaries : 132nd out of 2,480 teams

Extracurriculars

IUT Programming Community | Competitive Programmer, Mentor June 2022 - Oct 2025
Instructed weekly classes for 60+ freshmen and sophomores on competitive programming and problem-solving. Acted as judge, tester, and problem setter for internal contests. Participated in 15+ national-level team contests.

UIU Programming Community | Mentor, Trainer Oct 2025 - Present
Instruct weekly classes for advanced teams that participate in IUPC and ICPC. Take extra online sessions based on need. Teach data structures and algorithms for different types of problems (including real life oriented ones).
